

The Shreveport-Bossier Astronomical Society, Inc.

Join the Friends of the Shreveport-Bossier Astronomical Society, Inc.

The Shreveport-Bossier Astronomical Society, Inc. is a 501(c)(3) organization and all contributions are deductible to the extent allowed by law.

The Society is devoted to public outreach and education. Six times a year (three in the spring and three in the fall) the Society sponsors free public star parties at the Sheveport Observatory south of Shreveport, LA. Periodically the Society will also present free public lectures on astronomical topics of interest. Society members also visit public school classrooms. We routinely cooperate with the College of Sciences, LSU-Shreveport and the Sci-Port Discovery Center on joint programs.

The Society also serves as a resource for local media (newspapers as well as radio and television stations). The public is also encouraged to use the Society as a resource for astronomical information.

Donations to the Society will aid the Society in providing free star parties and programs to the public. Keep in mind that some corporations and their subsidiaries will donate matching funds for charitable contributions by employees.
